**Finish:** all sides hemmed, pole side left with white header tape and plastic hooks, top edge with a sleeve of white header tape  
Ø approx. Ø approx. 30 mm

### Please note:

- Use 1:10 artwork of page 2 to design (CMYK or special colours like HKS, Pantone, RAL can be use)
- For a very dense black please use a special colour with the label "Schwarz". (digital print)
- Please do not change the size of the document (Data Format = Trimmed Size + Bleed margin)
- Resolution: min. 600 and max. 900 dpi at a scale of 1:10 (digital print)
- Minimum line thickness in the original size is: 0.5 mm, 1 mm for white out designs.
- Convert all fonts into curves
- **Please delete the control paths necessarily, otherwise they will be printed. Do never convert the control paths to CMYK!**
- Please design all sides of the template when ordering a multipart or double-sided product. Sides without artwork remain blank and won't get printed.

**Further information can be found in our artwork specifications.**

Drawing is not true to scale.
